57	24/12/09	Buy (Hold)	5185.00	151.00	3084.00	
					285.00	Brokerage (5 Points per trade i.e. 57*5)
					2799.00	Net Profit (in Points per Nifty Future Lot)

* About 711 points gained due to upper circuit at the time of election results. Suppose that did not happen my profit would have been 2088 or if had I been short at that time, my profit would have been 1377 points. Even if there is any unforeseen eventuality, around 1000 points in a year are possible.

** I tested this way of trading from 24 December 2008 (Christmas of last year) but actually invested on 13 March 2009 and am still doing so.
